Town Warrant

THE STATE OF NEW HAMPSHIRE.

[SEAL]

To the Inhabitants of the Town of Merrimack, in the County of Hillsborough, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the town house in said Merrimack on Tuesday, the ninth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.
3. To see what sum of money the town will vote to raise or appropriate for the repair of highways and bridges.
4. To see if the town will vote to raise or appropriate the amount of money necessary to secure state aid for the maintenance of the state highway or take any action relating thereto.
5. To see if the town will vote to raise or appropriate the amount of money necessary to secure state aid for the permanent improvement of highways or take any action relating thereto.
6. To see what sum of money the town will vote to raise for the town library.
7. To see what sum of money the town will vote to raise for Memorial Day.

8. To see if the town will vote to allow a discount on the early payment of taxes and make an appropriation of the same.
9. To see if the town will vote to appropriate the tax received by the town on the Gage fund from the savings banks for the year ending January 31, 1920, and add the same to the income of said fund.
10. To see if the town will vote to raise or appropriate the amount of money necessary to pay the interest on the trust funds used by the town.
11. To see if the town will vote to erect guide boards and raise or appropriate money for the same.
12. To see if the town will vote to instruct the selectmen to hire money in anticipation of taxes or take any action relating thereto.
13. To see if the town will vote to build a permanent bridge or take any action relating thereto.
14. To see what amount of bonds the town will require for the trustees of trust funds.
15. To see if the town will vote to observe Old Home Day and raise or appropriate money for the same.
16. To see if the town will vote to close the road running from the Amherst road to the South Side State Highway between the church and the horse sheds of the South Merrimack Congregational scoiety or take any action relating thereto.
17. To see if the town will vote to raise or appropriate the amount of money necessary to secure Federal and State aid for the suppression of the white pine blister rust or take any action relating thereto.
18. To see if the town will vote to notify delinquent tax payers before advertising the property and make a charge for the same.
19. To hear the reports of town officers and transact any other business that may legally come before said meeting.

Given under our hands and seal, twentieth day of February, in the year of our Lord nineteen hundred and twenty.

HARRY WATKINS,
GEORGE W. CARROLL,
ELMER H. FIELDS,

Selectmen of Merrimack.

A true copy of Warrant. Attest:

HARRY WATKINS,

A. G. GORDON,
O. F. UPHAM,

Trustees of Trust Funds Town of Merrimack.

We have examined the foregoing accounts, including the receipts and payments for the year ending January 31, 1920, and find them correctly cast and properly vouched.

JOSIAH W. HENDERSON,
JOHN G. ROACH,

Auditors.

MERRIMACK, N. H., February 5, 1920.

REPORT OF LIBRARIAN.

(For Year Ending January 31, 1920)

Number of :

Books in library.....	4,817
Books loaned	7,289
Books purchased	83
Gifts received	42
Cards issued	66

At the town meeting, March 1919, \$500 was voted for library uses.

Although fewer books have been purchased than in many previous years, the circulation shows a gain of nearly one fourth, and the number of books added has materially increased, through an unusual number of gifts to the library.

Among the most valuable gifts received, is that of "An Encyclopedia of American Biography" in 12 quarto volumes, durably bound, and profusely illustrated. These books come through Mrs. Herbert Chase of Arlington Mass., and are credited to Mrs. Charles H. Burke of Nashua, as donor.

Another gift of 60 volumes, is from the library of late John D. Winslow of Boston, and is presented to the library by Fred D. Cross of Nashua. These books are all non-fiction, and among them are many biographies and other works of value, but they are not yet listed, and will be stored until more room can be provided for their shelving.

A gift of \$5.00 was received from Rev. J. W. Wright, as a Christmas offering, to be spent for books for the small children, and the children's shelves have been enriched by the addition of 8 volumes of the Thornton Burgess animal stories.

Several unbound volumes of the earlier issues of the Granite Monthly, were received from Miss Hartentia McMillan, which, when bound and shelved will make a valuable addition to our New Hampshire Historical Collection.

For all of these, and other gifts received, grateful acknowledgement is here made.

Six books, infected during the diphtheria epidemic, were ordered burned,—two of these (late books) have been replaced, and the others will be later.

The South Merrimack branch of the library was discontinued, after 6 months trial.

Respectfully, submitted,

EMMA A. CROSS,
Librarian.

FICTION.

- Allen The Kentucky Warbler.
- Babcock The Soul of Ann Rutledge.
- Bailey The Tin Soldier.

Report of the Superintendent

To the School Board of Merrimack:

Greeting—Though the school year does not end until August 31, I am respectfully submitting to you at this time and through you to the people of your community a partial report upon the condition of your schools.

In the administration of our public schools, the electors of the district as voters, you as board members, and myself as a superintendent are working under an entirely different statute than in past years. The act of our last legislature, entitled "An Act in Amendment of the Laws Relating to the Public Schools and Establishing a State Board of Education," virtually established a state system of schools, in the local administration of which it is the privilege and duty of the three above mentioned parties to participate. As I understand the law, its object was threefold, viz., to unify and standardize the schools of the state, to Americanize the alien born citizen, and to equalize, within certain limits, the financial burden of the public school system.

This statute requires us to maintain standard elementary schools for thirty-six weeks each in suitable and sanitary buildings equipped with approved furniture, books, maps, and other necessary appliances, taught by an approved teacher, directed and supervised by an approved superintendent, and with suitable provisions for the care of the health and physical welfare of all the pupils.

During the summer, the state board caused to be sent out to the various school districts regulations governing the temporary approval of schoolhouses. Regulations have also been adopted and distributed for the proper care of the health of the pupils, and minimum requirements for the

work of the three lowest grades. Certain standards have been fixed for the certification of our teachers and superintendents. In the work of Americanization, up to the present time there has been less of regulation and more has been left to the disposition and honesty of the various school districts to carry out the spirit of the law. In the work of equalizing the financial burden of maintaining the public school system, the state board is likely to be handicapped by a seemingly inadequate appropriation. According to the statute, when a school district has taxed itself \$5 per \$1,000 of its assessed valuation for the maintenance of public elementary schools, the balance necessary to keep such schools in session for thirty-six weeks will be furnished from the state treasury. This will surely be done this year if the appropriation is sufficient. If found to be insufficient, some alternative will have to be resorted to.

So much for the activities of the state board in carrying out the provisions of the statute, but what is of more concern to us is, how are we fulfilling the trust imposed upon us by this statute which is receiving so much favorable comment throughout the country.

The citizen who so regulates his conduct as to conform to his legal obligations to the point only that will avoid any legal penalty, is not regarded by us as a very exemplary citizen. No more should that school district be considered as an exemplary school district which meet only the requirements of the act and the regulations of the state board. Indeed, the school district which will meet only the minimum standards set up by the state board in the schools in which are educated its own offspring, cannot but blush for its lack of public spirit. I feel that there are but few school districts in this state which, knowing the facts of the case, would voluntarily be placed in this class.

School Buildings.

In the housing of our school children the statute makes the general demand that the buildings shall be "suitable and

sanitary" and the state board in the exercise of its legal functions has made these demands specific. In a recent survey of your schoolhouses containing but one room, which survey and report were required by the state board, I found that all of your five rural schoolhouses failed in some one particular to meet the minimum requirements of the state board for temporary approval. The fault most prevalent was inadequacy of window space. Without doubt the demands of the state board will be progressive, approaching, within a few years, conditions nearly ideal. This will require that the school buildings which you use will have to be remodeled so that, among other things, the lighting, ventilating and heating may be suitable and adequate, the toilets directly connecting with the school building and with sanitary vaults, the seats and desks all or in part adjustable, and the walls and ceilings properly tinted and frequently renovated.

It is evident that it would be a difficult and uneconomic procedure to alter and patch up yearly these five buildings so as to meet the progressive demands of the state. It would be far better to remodel each year one of these buildings and put it in as near ideal conditions as the old structure will permit. It is time that your district adopted this policy.

Seventh and Eighth Grades.

The program of studies, published and distributed by the department of public instruction in 1916 and adopted last summer for the elementary schools of this state by our state board, calls for a reorganization of the work especially in grades seven and eight. The 1919 program of studies for secondary schools, which was adopted by the state board at the same time, picks up the work where the other program leaves off. This task of reorganizing the work of the schools has been carried to completion in many places and is fast approaching it in the rest. Merrimack offers unusual difficulties in this line, but they are difficulties which it

would seem necessary to overcome. Your pupils attending any of the neighboring secondary schools other than McGaw must lose one or two years of time if they remain in Merrimack through the eight grades. In addition, if McGaw is to survive, it will eventually have to reorganize its work so as to conform to the approved program or drop back to a three year secondary school.

It seems to me at this time that a centralization of grades seven and eight is out of the question because of its difficulty. It does appear to me, however, that it is feasible to do all the work of these two grades at both the Reed's Ferry and Merrimack schools. It is a question in my mind whether it is advisable to attempt the same work in all or any of the five rural schools. If not done, some other alternative should be adopted. I wish to bring this matter to your attention for careful consideration and action.

Americanization.

Americanization is declared by the statute to be "an essential part of public school education." The same statute also prescribes the limits within which school districts shall maintain evening schools for Americanization work. If Merrimack does not come within the limits prescribed, it is so close to them that the matter of evening schools another year should be seriously considered by you. Merrimack would surely wish to live up to the spirit of the statute whether compelled to support such schools or not by the letter of the law.

Teachers and Wages.

The shortage of teachers has become decidedly alarming. The tremendous struggle to secure enough teachers to open all schools this fall cannot but substantially raise the price of teaching. It is even desirable that such should be the case, for if teachers' wages are not sufficiently raised to attract more to the profession, our educational system must

suffer an alarming set-back. If the state appropriation is not sufficient to warrant a general raise in wages for next year, the several school districts should protect themselves by raising an emergency fund, to be used only in event that the state appropriation proves insufficient that the districts may be able to meet this unexpected additional expense. I believe the people of Merrimack want and will vote for good schools even if they have to tax themselves beyond the \$5. per \$1000. of assessed valuation.

Health and Physical Welfare.

In conformity with the statute "with suitable provision for the care of the health and physical welfare of all the pupils," and agreeable to the regulation of the state board, your board secured the services of Mrs. Maude Priske of Hudson for a school nurse. Your district was fortunate in securing a nurse with such thorough training, broad experience, and natural aptitude for the work. The report of her physical examination of the pupils shows: number of pupils examined 186, number suffering from nervous disease 1, gland disease 2, defective vision 13, hypertrophied tonsils 59, defective teeth 104, and unvaccinated 2. These figures will be a revelation to some of you, but I have found that even when the examination is made by the physicians themselves who have had the health of the children in charge, that the actual condition of the pupils as revealed by an examination *en masse* has been a great disappointment to them. For the first time this work has been state wide, and we may confidently expect that there will be a general campaign to overcome the remedial defects. Your nurse has sent out to the parents 157 card notices, and if a careful follow-up system is carried out, great good should come to the children.

I am attaching hereunto a report from your headmaster Sleeper, to which I ask your careful reading.

With hearty thanks for the generous co-operation of the board, for the loyalty of the teachers, and the consideration of the public which I have enjoyed since assuming my duties with you, this report is

.. Respectfully submitted,

LOUIS DeWITT RECORD,

Supt. of School Union No. 27.

January 26, 1920.

REPORT OF HEAD MASTER.

To the Superintendent and Trustees of McGaw Normal Institute:

Through the efforts of the trustees and the superintendent of schools, the teaching services of Mr. Clarence W. Sleeper, Mr. Allan A. Sandberg and Miss Katherine Williams were secured for McGaw for the school year 1919 and 1920. Mr. Sleeper was elected head master by the board, taking as his subjects the sciences and economics. Mr. Sandberg heads the language group, including English, French and Latin. Miss Williams supervises the domestic science department, and teaches history and civics.

The school this year is being administered in strict accordance with the state requirements, based upon an approved curriculum from the Commissioner of Education. Following is the program of the institute as approved by the State Department:

CURRICULUM I.

First Year—Wood and Iron Construction, English French, History of Civilization.

Second Year—Wood and Iron Construction, English, French, Algebra.

Third Year—Physics, Economics or Latin, French, Geometry.

Fourth Year—Chemistry, English, U. S. Constitutional History, Advanced Math. or Latin.

CURRICULUM II.

First Year—Cooking and Sewing, English, French, History of Civilization.

Second Year—Cooking and Sewing, English, French, Algebra.

Third Year—Physiology and Nursing, Latin, French, Geometry.

Fourth Year—Household Management, English, U. S. Constitutional History, Latin.

It can be seen very readily that Curriculum I would be followed by the boys, while Curriculum II would be pursued by the girls.

	12	13

With the opening of the school year, athletics were promoted and supervised on the playground. The boys vigorously played playgrounds ball, while the girls were

taught to play volley ball. They were also encouraged to remain out of doors as much as possible at recess and during the noon hour. Since the arrival of the winter months and inclement weather, five minutes of each recess is devoted to setting-up exercises. The physical training work has been rather supplementary to the work of the school nurse.

The work of the Domestic Science department deserves special merit. Practical project in cooking and sewing has been done by the girls of the Freshmen and Sophomore classes. Nine lunches are to be served by the class in cooking. Two of these have been served already. Through the severe cold weather this department has handled successfully a noon lunch for those who bring their dinner. The work in cooking has been terribly handicapped at times because of inadequate water supply.

The coöperation between teachers and pupils is excellent. The moral tone of the school, is good and we feel that the school deserves the interest of the parents and citizens of Merrimack. We earnestly invite all parents and friends to visit school and see what we are striving to accomplish.

Respectfully submitted,

CLARENCE W. SLEEPER,

Head Master.
